ELF-AIR1 XH/XHP

(1) Préfiltre air neuf ISO ePM$_{10}$ 50% (M5)
(2) Filtre air repris ISO ePM$_{10}$ 50% (M5)
(3) Filtre air neuf ou air repris ISO ePM$_1$ 55% (F7)
Filtre air neuf ISO ePM$_1$ 80% (F9)

Filtres de rechange

Les appareils Helios AIR1 sont livrés de série avec des filtres de classe ISO ePM1 55 % / F7 (air neuf) et ISO ePM10 50 % / M5 (air repris). Selon la taille de l'appareil, les filtres se composent de plusieurs cartouches (séparées). Cela est déjà pris en compte lors d'une commande de filtres de rechange. Pour les exigences plus strictes en matière de qualité de l'air, d'autres classes de filtres sont disponibles pour l'air neuf et l'air repris (voir le tableau ci-dessous). Tous les filtres sont des filtres à cassette optimisés en ce qui concerne les pertes de charge et disposent d'une grande surface de filtration.
